Welcome to this beautifully crafted custom two-story home, perfectly positioned to back onto the tranquil College Park Lake. Designed for modern living with sustainability in mind, this energy-efficient property features solar panels, ICF block foundation, triple pane windows and thoughtful finishes throughout. Step into the heart of the home—a stunning custom kitchen featuring a six-burner gas range, double wall ovens, concrete countertops, oversized sink, and a large butcher block prep area. A spacious walk-in pantry keeps everything within reach while maintaining a clean aesthetic. Whether you’re hosting dinner or enjoying quiet family meals, this kitchen is built to impress. The open main level enjoys gorgeous natural light through north-facing windows and offers seamless flow to the low-maintenance yard, which includes underground sprinklers - ideal for relaxing or entertaining. Upstairs, you’ll find a serene master retreat with walk-in closet and a peaceful ensuite, plus a second bedroom and a convenient laundry room. A bright second-level family room overlook the lake, offering inspiring views all year long. The partially finished basement offers plenty of potential for future development, while the attached 24’ x 28’ garage includes a 220V plug and EV charger—perfect for modern vehicle needs. Don’t miss your chance to own this unique, lake-backing home that blends custom craftsmanship, energy efficiency, and premium comfort.
